WISCONSIN INSURANCE SECURITY FUND

Assessment Premium Reporting and Exemption Claims

- Insurers writing life, annuity, accident and health or HMO coverage should utilize the NOLHGA Assessment Data Survey reconciliation with the annual financial statement to report exempt premium (i.e. Medicare, Medicaid and FEHBP).
- Insurers writing property casualty or other covered lines of business who have exempt premium that appears on their annual financial statement should contact the Security Fund for instructions on how to file for a premium exemption.

Guidance for Statutory Reserving

- Each December, the Fund produces a summary of projected liabilities and account balances by insolvency account to assist companies in their statutory accounting reserve determinations.
- The 2019 YE SAAP Report (issued 12/4/2019) is included on the next page.
- Watch our website for update that will be posted after 12/11/2020.
- If you have questions on this report, please send your contact information to Wisconsin@wisf-madison.org.

Account Assessment Base

P&C, Disability and HMO accounts use the year prior to assessment authorization. There are no outstanding uncalled assessments in any of these accounts.

Life and Annuity accounts use the three years prior to liquidation. There are no outstanding uncalled assessments in these accounts.

All amounts indicated for future liabilities are estimates and are subject to change.

1. The timing of assessments is determined, and will be dependent upon, by the cash flow needs of the Fund related to insolvency estates.
2. The amount assessed may be reduced by distributions from open liquidation estates, investment income and premium revenue. New this year, the P&C projected liabilities reflects the beneficial effect of net worth recoveries.
3. The Fund can't predict whether future insolvencies will occur that require assessments.

Column Descriptions

Active Insolvencies include all liquidations where the Fund continues to maintain estate level tracking and has projected liabilities. Open estates range widely with the oldest remaining P&C estates dating from 1985, oldest life estate is from 1981 and disability account estate is from 2010.

Active Open Estates includes only estates when the liquidation estate is also still open. This is significant because in many cases the bar dates have not been set and administrative costs are reimbursed and estate distribution continue.

Current Assessment Base shows the preliminary assessment base for the most current year. The Life, Annuity and Disability account information comes from the annual statement reconciliation and NOLHGA Assessment Data Survey (results usually available by September 1st). P&C and HMO account information comes from the annual statements through OCI (results usually available by June 1st)

Current Account Balance shows the funds currently held in each account for all liquidation estates. These funds are receipts (assessments, early access, estate distributions, premium, recoveries and investment income) after all expenses (claims, adjustment costs and allocated administrative expenses)

Current Projected Future Liabilities includes claims and claims adjustment reserves, but does not include allocated administrative expenses. The Fund annually allocates between 70 - 80% of its approximately \$1,135,000 annual administrative budget through a time/effort based allocation formula.
